

Making MAP Data Work FOR You

Step Nine, DRS Lexile Report

1

Corporate Collaboration

- The NorthWest Evaluation Association (NWEA) owns and runs all things MAP.
- The MetaMetrics organization is a separate company that provides Lexile Levels for reading comprehension.
- NWEA and MetaMetrics collaborate, and create an equal relationship between student RIT scores and Lexile reading levels.
- Each RIT reading level has a corresponding Lexile level for Reading Comprehension.
- Using Lexile levels to help choose materials at the proper reading level helps make the use of MAP data come alive for teachers in ALL curricular disciplines from science to music to social studies to industrial technology.

Imagine:
...using this resource to develop book lists for each student's reading level.

...using this resource to obtain text enhancement materials for EACH student in your class.

DRS LEXILE REPORT

- Personalize the book search for each student by adding words/subjects to include or exclude from the book titles or summaries.
- The result will be books on the subject you choose at the student's reading level.
